

Powering FRPO's CRB Certification Program with a Custom Energy & Sustainability Platform

Federation of Rental-housing Providers of Ontario (FRPO) — Client Partner

FRPO is the largest association in Ontario representing those who own, manage, build, and finance residential rental properties and their industry partners. To help its Certified Rental Building (CRB) program move beyond a compliance checklist, QSS designed and built a custom Energy & Sustainability Software Platform that turns raw utility data into a clear, data-driven pathway to energy efficiency — from understanding a building's performance to funding its next upgrade.

350k+

Households owned or managed by FRPO's members

5

Core platform capabilities, benchmarking to incentives

ON & BC

Provinces where QSS delivers portfolio energy programs

Real-Time

Performance scoring from raw utility data

Platform Highlights

1

Portfolio & National Benchmarking

Vs. own portfolio and national peers, matched by size, location, and age.

2

Retrofit Recommendations

Screening-level upgrades tailored to the building, ranked by savings.

3

Incentives & Grants Match

Each measure linked to relevant funding — a clear next step.

4

Real-Time Performance Scoring

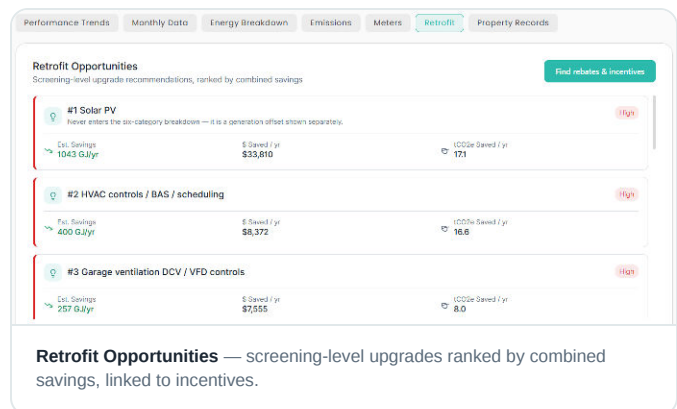

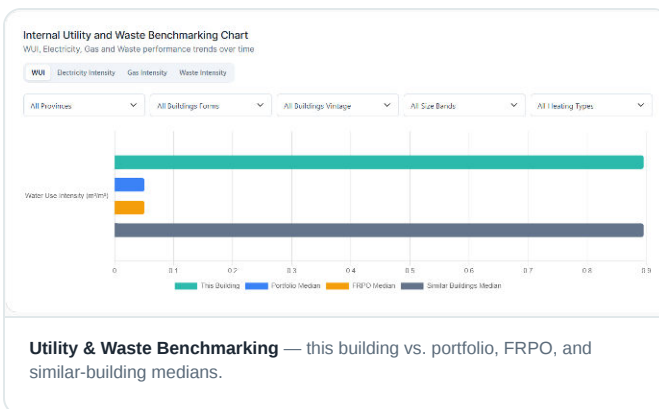

Raw utility data becomes live scores and trend charts.

5

Side-by-Side Comparison

Instantly flags underperforming buildings in a portfolio.

Inside the Platform

**ILLUSTRATIVE
BUILDING EXAMPLE —
TOP RETROFIT (SOLAR
PV)**

1,043 GJ/yr
Energy saved

\$33,810/yr
Cost savings

17.1 tCO2e/yr
Emissions avoided

About Quwa Smart Services (QSS)

Toronto-based engineering services firm with P.Eng, CEM and PMP-credentialed engineers serving commercial, multi-residential, co-op and municipal portfolios in Ontario and BC.
